

## SYRACUSE UNIVERSITY

### CAMPUS PLANNING, DESIGN, AND CONSTRUCTION

August 27, 2007

Reference: Letter of Reference  
A-M Electric, Inc.

To Whom It May Concern:

A-M Electric, Inc. is an electrical contractor that has been hired on a regular basis to do a variety of electrical projects at Syracuse University. Among the projects completed by A-M are: complete electrical, lighting, and fire alarm scope for a 4-story 350 car parking structure, South Side Innovation Center Renovation, South Campus Building Lighting Improvements, South Campus Parking Lot Lighting Improvements, South Campus Emergency Phones, 426 Ostrom Avenue Renovations, several renovation projects in Bird Library, Campus Card Access System Installation, Shaw Dining Hall Renovation, and Eggers Hall Room 035 Renovation. A-M is currently performing the installation of the fire alarm system for the Slocum Hall Renovation project.

The quality of workmanship has been high on all of the projects A-M has worked on at the University. The company demonstrates a thorough knowledge of the industry, and manages their projects in a professional manner. The University expects to continue inviting A-M Electric to bid on future projects and we look forward to continuing our current relationship.

Sincerely,

Eric L. Beattie  
Director
